

Be a part of the Sixth Annual CleanTech Innovation Showcase & Northwest and Western Innovation Workshop

June 24-25, 2019 | Seattle, WA

BACKGROUND: The future of the western region cleantech ecosystem depends on the sector's ability to connect with the decision-makers and investors, have a measurable impact in the marketplace, and drive its own innovation and commercial expansion.

The sixth annual CleanTech Innovation Showcase - Partner, Invest, Educate (Showcase) is an established one-day clean technology conference held in Seattle, Washington. This year, in partnership with the Western Interstate Energy Board (WIEB), a second day energy workshop program will enhance the Showcase's presentations, plenary sessions, and exhibition of clean technology growth in energy, water, built environment, transportation... and more.

The aim of the annual Showcase on June 24 and the new Northwest and Western Innovation Workshop (Innovation Workshop) on June 25 includes generating new business opportunities, displaying the latest innovation, enhancing regional competitive advantages, and creating added value for companies, research and higher educational institutions, utilities, and local authorities through better linking policy, applied and basic research, and technology development.

The Showcase and the Innovation Workshop provide hands-on knowledge, remove silos across the cleantech spectrum, provide new perspectives, and help attendees discover relevant innovations in multiple industrial and technology areas.

The Showcase attracts cleantech industry leaders from across the U.S., Canada and beyond to see technology innovations and featured presentations from industry notables. The event brings together a who's who of the Northwest region's cleantech industry. No other event gives you this kind of access to:

- Cleantech industry leaders and decision makers
- Private industry, government and university researchers
- Angel, corporate and venture capital investors
- Federal, state, county and municipal policymakers
- Foreign leaders and delegations
- Business and industry media

AT A GLANCE:

- Over 400 attendees
- Past keynote speakers include Jay Inslee, Robert Gates, Christie Todd Whitman, Denis Hayes
- Past sponsors include Boeing, University of Washington, Energy Northwest, Washington State University
- Past Exhibitors include a pavilion of Canadian companies, Pacific Northwest National Laboratory, Idaho National Laboratory
- Past Presenting Companies include City of Spokane, Center for Bioplastics and Biocomposites, A&R Solar, Global Fiberglass Solutions, National Energy Technology Laboratory, ChargePoint, Sironix Renewables

**PRESENTING COMPANY
APPLICATIONS - ALL YOU
NEED TO KNOW:**

Applications due by May 3, 2019

Review Committee makes their
selections the week of May 6, 2019

Successful applicants will be
notified on May 13, 2019

Last day to pay presenting fee is on
May 24, 2019

Formal announcement of
Presenting Company lineup will be
on May 28, 2019

Questions? For information about
being one of the 24 Presenting
Companies, and benefits, please
contact - Jon Okun at
jon@cleantechalliance.org or call
him directly at 206-389-7255.

PARTICIPATE

The Showcase provides multiple opportunities for sponsors and attendees to actively partner, invest, and engage.

Attend. Don't miss the opportunity to engage, network, and learn. If you are a member of the Western Interstate Energy Board, please contact Melanie Snyder at msnyder@westernenergyboard.org or via phone: 720-897-4606 to seek travel support funds. Registration will open at the end of March. Please let Melanie Snyder know your interest and you will receive a link to register.

Be a Presenter. The CleanTech Innovation Showcase offers 24 organizations the unique opportunity to showcase their clean technologies and/or related projects. Presenting entities receive 20 minutes "at the podium" in three breakout rooms to share innovations that advance cleantech in the marketplace. There is no cost to apply, and the application should take under 20 minutes to complete. CleanTech Alliance membership is not required. An independent panel of CleanTech Alliance members will review each application and vote to select 24 organizations who are invited to present. The cost to present for invited organizations is \$500.00 and includes one registration to the Showcase.

Be a Sponsor and Exhibitor. Join with other preeminent cleantech decision makers, policy leaders, and investors from business, research, public services, and government by being a sponsor. CleanTech Innovation Showcase. Sponsors and exhibitors gain visibility in front of 500 cleantech industry through day-of engagement and through the event's social media channels and email distribution lists. Sponsorships start at the Supporting (\$2,500), Principal (\$5,000) and Presenting (\$7,500) levels. Exhibitors can secure a spot for just \$1,000.
